| Mutually incompatible lucene-core libraries in lib/ | | | |

History

#1 - 02/21/2013 04:56 PM - ben leinfelder

According to svn history, I added the lucene-core-2.2.0.jar when adding the foresite dependencies for libclient and ORE generation. I will check that ORE generation still works with this old lucene library removed and hopefully commit that.
The dependency is far removed: d1_libclient->foresite->jena->arq->lucene-core

removing the old lucene-core jar still allows us to generate ORE maps
