

Morpho - Bug #5879

Merge ECP IdP list from CILogon with local configuration

02/22/2013 08:02 AM - ben leinfelder

Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	5879		
Description			
<p>CILogon keeps a simple list of ECP-enabled IdPs that we can read from to get new members that support that protocol. We also keep a list in our local config.xml so that we don't rely on them entirely (testing, etc). We should merge these. Duplicates would be determined by the URL and I think we should defer to the CILogon display name since that can be dynamically updated after we release Morpho with a static configuration file into the wild.</p> <p><ecp_idp_list_url>https://cilogon.org/include/ecpidps.txt&lt;/ecp_idp_list_url></p>

Now merging the two lists. to actually release morpho we should comment out the test IdP entries in config.xml
