

Metacat - Task #5931

Bug # 5812 (Closed): Rework default skin[s] to use SOLR query

Allow use of PID (or docid) using Metacat API "read" action

05/03/2013 09:40 AM - ben leinfelder

Status:	Closed	Start date:	05/03/2013
Priority:	Normal	Due date:	
Assignee:	ben leinfelder	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	2.2.0	Spent time:	0.00 hour
Description			
The SOLR results use PID as the identifier but the Metacat API for rendering metadata uses docid. We should allow optional use of a pid parameter so that DOIs are fully supported.

- Status changed from New to Closed

This was committed along with a different change. But might as well stick with it as I think it will be important as we go forward with SOLR query results.
