

Metacat - Bug #6

MCAT won't build under IRIX with Oracle 8.0.5

01/17/2000 08:37 PM - Matt Jones

Status:	Resolved	Start date:	01/17/2000
Priority:	Normal	Due date:	
Assignee:	Matt Jones	% Done:	0%
Category:	SRB MCAT	Estimated time:	0.00 hour
Target version:	Sep2000	Spent time:	0.00 hour
Bugzilla-Id:	6		
Description			
link errors prevent build. Some specific problem with libclient.a not resolving all the symbols that it needs.

Blocked by Metacat - Bug #7: MCAT doesn't pass tests when built under Oracle ...		Resolved	01/17/2000

History

#1 - 01/17/2000 08:42 PM - Matt Jones

examining library dependencies for OCI under 8.0.5

#2 - 01/17/2000 10:13 PM - Matt Jones

kpu* symbols that are not resolved during link are found in the \$ORACLE_HOME/rdbms/lib/kpudfo.o object, which appears to typically be linked in only during a static link. By adding \$DEF_ON to \$DBMS_LIB in the mk.config file I was able to successfully build both SRB and MCAT under Oracle 8.0.5. Testing functionality still to be done.

#4 - 01/21/2000 11:07 AM - Matt Jones

Added diff output as attachment showing failures for 4 test cases.

#5 - 01/25/2000 11:43 AM - Matt Jones

Rajasekar indicates that the failed test cases are big problems related to Oracle 8.0.5, and recommends upgrading to Oracle 8.1.5 rather than debugging these particular issues.
