Description

The #data page does not render completely because we are trying to set the "popular" link selected state using a jquery selector with an apostrophe.

History

#1 - 08/08/2013 11:20 AM - ben leinfelder

- Description updated

- Status changed from New to In Progress

#2 - 08/08/2013 11:23 AM - ben leinfelder

- Status changed from In Progress to Closed

- Assignee set to ben leinfelder

Now catching this exception and reporting it on the console -- no need to do anything else with it since there is no popular search link on which to set the selected state.
