MetacatUI - Task #6078

Feature # 5957 (Closed): Design and implement graphical look and feel for default skin

Include Metacat documentation using the #external view

09/06/2013 10:17 AM - ben leinfelder

Status:	Closed		**Start date:**	09/06/2013
Priority:	Normal		**Due date:**

Target version:	1.1.0		**Spent time:**	0.00 hour

Description

This will generally be pulled from:
/<context>/docs
like:
http://knb.ecoinformatics.org/m/#external//knb/docs

Will require some CSS additions to metacatui.css for the Sphinx-generated documentation pages. And, it also sees like not all the internal anchors are working as they should (contrast that with the EML documentation that uses this same #external mechanism:
http://knb.ecoinformatics.org/m/#external//emlparser/docs/index.html

- *translation missing: en.field_remaining_hours set to 0.0*

Each MetacatUI theme CSS file now has styling specifically for the documentation, by selecting elements only in the wrapper div of the docs created by Sphinx. Images are loaded in by changing the src value via ExternalView.js.
