

MetacatUI - Task #6104

Feature # 5949 (Resolved): Implement advanced search filters in sidebar

Reload previous search and filters when refreshing or reentering the DataCatalogView

09/27/2013 08:30 AM - Lauren Walker

Status:	Rejected	Start date:	09/27/2013
Priority:	Normal	Due date:	
Assignee:	Lauren Walker	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.2.0	Spent time:	0.00 hour
Description			
Get all the attributes from the search model in the view's render function and populate the search template			

History

#1 - 09/27/2013 08:31 AM - Lauren Walker

- Parent task set to #5949

#2 - 10/25/2013 11:25 AM - Lauren Walker

- Status changed from New to Rejected

- translation missing: en.field_remaining_hours set to 0.0

This actually works except when refreshing the page. I decided I didn't want to reload the previous filters when refreshing anyway.
