

## VegBank - Bug #619

### Delete plots works, but sends fail messages

10/02/2002 09:57 AM - Michael Lee

#### Description

When I deleted plot using the ./dropplot.sh, I get what appears to be error messages. However, the plots do seem to be deleted (can't query them).

```
[lee@vegbank]% ./dropplot.sh 10 vegbank.nceas.ucsb.edu
utility > dropped stratumcomposition: false
utility > dropped commclass: false
utility > dropped stratum: false
utility > dropped taxonobservation: false
utility > dropped observation: false
utility > dropped plot: false
utility > dropped plotsitesummary: false
[lee@vegbank]% ./dropplot.sh 12 vegbank.nceas.ucsb.edu
utility > dropped stratumcomposition: false
utility > dropped commclass: false
utility > dropped stratum: false
utility > dropped taxonobservation: false
utility > dropped observation: false
utility > dropped plot: false
utility > dropped plotsitesummary: false
```

#### History

##### #1 - 01/08/2003 07:58 PM - John Harris

removed the ambiguous output

##### #2 - 01/31/2005 02:53 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.

##### #3 - 03/27/2013 02:14 PM - Redmine Admin

Original Bugzilla ID was 619
