

## MetacatUI - Bug #6195

### the Publish button should be disabled for metadata files that already have a DOI

11/01/2013 12:08 AM - Matt Jones

<b>Status:</b>	Closed	<b>Start date:</b>	11/01/2013

<b>Description</b>			
Currently, the Publish button is visible and enabled if a user is logged in and has permission to publish a new identifier. Once a DOI has been assigned, however, the Publish button should be disabled as there is no need to assign a new DOI to an object that already has one. Also, the Publish button should be disabled for any obsoleted versions of an object, as they can not be updated() and therefore assigning a DOI doesn't make sense. Only when a user has created a new, non-doi version of an object should the button be enabled again.			

#### History

##### #1 - 11/01/2013 12:49 PM - Lauren Walker

Perhaps the wording on the button could say "Published" vs. hiding or just disabling

##### #2 - 11/08/2013 09:45 AM - ben leinfelder

- Assignee changed from ben leinfelder to Lauren Walker

DOIs can show up in three forms as of the moment:

```
doi:10.xxx/...  
http://dx.doi.org/10.xxxx/...  
http://doi.org/10.xxxx/...
```

The '10' is the DOI Foundation, and distinguishes DOIs from other Handles, which will have different authorities.

##### #3 - 11/15/2013 08:33 AM - ben leinfelder

- Status changed from New to Closed

- Assignee changed from Lauren Walker to ben leinfelder

Not showing the button when the pid starts with any of those prefixes.
