<b>Description</b>			

#### History

##### #1 - 11/19/2013 04:20 PM - ben leinfelder

- Status changed from New to In Progress
- Assignee set to ben leinfelder

Looked over their non-profit business options (<http://www.google.com/earth/outreach/grants/software/mapsapi.html>) and that doesn't seem to apply. Would be nice if we could use the free version but not tie it to a specific person.

We should ship WITHOUT (Lauren's) api key.

##### #2 - 11/20/2013 03:01 PM - ben leinfelder

- Status changed from In Progress to Resolved

I got nick to create a new account for us in the Google Apps NCEAS domain:

[googlemaps@nceas.ucsb.edu](mailto:googlemaps@nceas.ucsb.edu)

I have added two API projects that have different API keys we can use for deployment:

dev2 MetacatUI

KNB MetacatUI

and I linked our team's accounts to these projects as "owners":

googlemaps

cjones

jones

leinfelder

tao

walker

I have the password for the main account and can add projects as needed (perhaps SNAP and GOA).

Please use your own key for localhost development so that we do not inflate usage stats for any of our QA/Production environments.
