

EML - Bug #626

ProcedureStepType schema needs revision to protect sequence of descriptions.

10/11/2002 12:34 PM - Tim Bergsma

Bugzilla-Id:	626		
Description As of RC2, the schema for ProcedureStepType is such that protocol replaces, rather than qualifies, description. I think the choice of (description or (citation or protocol) should be a sequence of description (one), citation (zero to many) and protocol (zero to many); or something to that effect.
