History

#1 - 12/09/2013 04:13 PM - Lauren Walker

- Target version set to 1.5.0

#2 - 01/08/2014 01:31 PM - ben leinfelder

- Assignee set to Lauren Walker

Draft of this is in metacatui trunk and relies on newer changes in Metacat indexing that are targeted for v2.4.0.
We are using SOLR's "dynamic fields" to store the view count (name="read_count_i").

#3 - 01/13/2014 12:29 PM - Lauren Walker

- Status changed from New to Resolved
