

Semtools - Task #6345

Story # 6256 (New): Design/implement annotation generation system

Integrate Domeo annotator (perhaps)

01/02/2014 12:50 PM - ben leinfelder

Description			
I emailed a bit with Paolo about using AO and OA along with the Domeo webapp for annotating resources. They target HTML pages, essentially, but there could be room for expanding the scope of Domeo to work with XML documents etc. http://swan.mindinformatics.org/
