Description

History

#1 - 01/17/2014 04:26 PM - Lauren Walker

- Target version changed from 1.4.3 to 1.4.4

#2 - 01/28/2014 10:03 AM - Lauren Walker

- Status changed from New to Resolved

This is the Chrome Dev Tools trying to find the map for jQuery.min.js for easier debugging. It only occurs when the Dev Tools is open, so normal users were not experiencing this 404 error.

I added the jQuery 1.9.1 map file to the components directory of the 1.4 and 1.5 branches.
