

MetacatUI - Bug #6459

Line chart Y scale is wrong when a line with data less than the Y scale is graphed

03/13/2014 12:20 PM - Lauren Walker

Target version:	1.5.0	Spent time:	0.00 hour
Bugzilla-Id:			
Description			
I may either have to: - always start the Y scale at 0 - recreate the Y scale after each additional line is added and redraw previous lines to this new scale Option 1 is faster implementation Option 2 is more flexible (infinite lines can be drawn no matter the data values)

For now, Option 1 is implemented. Until it seems imperative to have a more flexible line chart, we can keep it this way.
