I am currently testing a jQuery plugin called jQuery Form (<http://malsup.com/jquery/form/#getting-started>) which allows file uploads in IE8+ and other browsers.

- Status changed from In Progress to Resolved

I've tested the plugin in IE 8,9,10, Firefox 9+, and Chrome 33 and it works. The plugin only needs to be used when submitting a form with file inputs. The usual \$.ajax() works ok in IE 8 and 9.
