

MetacatUI - Task #6511

Feature # 6495 (Resolved): Visualization of certain data files types

Display a thumbnail of the data images in the search result list

04/10/2014 04:39 PM - Lauren Walker

Status:	Rejected	Start date:	04/10/2014
Priority:	Normal	Due date:

Target version:	1.7.0	Spent time:	0.00 hour
Description			
This may require a "list view" and "thumbnail view" to switch between or just adding an image to the result list row. I have a feeling there aren't enough images to populate a thumbnail view.
