#### Description

If the 'Data/Create New Datatable...' menu item is selected and the user then hits the 'Cancel' button, an unwanted window appears (old Add mentadata wizard?). Hitting Cancel in this dialog(window) will return the user to the data package display, but the extra window should not appear.

#### History

##### #1 - 10/24/2002 01:23 PM - Dan Higgins

fixed by changing code in PackageWizardShell to just set existing MorphoFrame to visible when Cancel button is pressed
