

MetacatUI - Task #6564

Feature # 6514 (Resolved): Retrieve facets of the geohashes for all search results and map those facets

Map the geohash counts as tiles rather than clusters

06/06/2014 09:37 AM - Lauren Walker

Status:	Resolved	Start date:	06/06/2014
Priority:	Normal	Due date:

Category:		Estimated time:	0.00 hour
Target version:	1.6.0	Spent time:	0.00 hour
Description			
Since the clusters are very grid-like anyway, we decided that it may be worthwhile to try mapping the geohashes as a full-on grid by coloring in the geohash bounding box. A new branch of MetacatUI was created to keep the current cluster functionality separate in case this doesn't work great.
