Description

The error message should give three reasons why the content isn't found:
- content was removed because it was invalid or inappropriate
- the user doesn't have permissions to view this content
- that ID doesn't exist

History

#1 - 09/11/2014 03:52 PM - Lauren Walker

- Status changed from New to Resolved

The error message now reads:

Nothing was found for one or more of the following reasons:
The content was removed because it was invalid or inappropriate.
You do not have permission to view this content.
The ID 'x' does not exist.
