<b>Bugzilla-Id:</b>	658		

#### Description

The data package summary at the top of package screen can be so long as to cause an overflow of the first line to the second. Need to add code to truncate the first line and avoid overflow so tha format is not degraded.

Suggest determining legth of text and using ellipses (...) if the string is to long for the window size.

#### History

---

##### #1 - 11/20/2002 11:42 AM - Dan Higgins

Size of text display set to not overflow to next line when long. Additional text displayed when the window is made larger/
