

MetacatUI - Feature #6603

Display related datasets at the bottom of the Metadata View

09/23/2014 04:16 PM - Lauren Walker

Status:	New	Start date:	09/23/2014
Priority:	Low	Due date:	
Assignee:	Lauren Walker	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Bugzilla-Id:			
Description			
<p>The bottom of the Metadata view will contain a list of datasets that are somehow related via provenance to the current dataset. Provenance relationships will be stated such as "This dataset contains data derived from..." or "Other datasets have used this dataset..."</p> <p>See mockups attached to #6566.</p>			

History

#1 - 01/14/2015 10:35 AM - Lauren Walker

- Parent task deleted (#6598)

The provenance display in the Metadata view has been redesigned and this idea is out. I still like this idea in the future for showing related datasets that are not related via provenance but have similar keywords, same creator, etc. So I'll put this ticket in the backlog instead of rejecting it.

#2 - 01/14/2015 10:37 AM - Lauren Walker

- Target version deleted (1.7.0)

#3 - 01/14/2015 10:37 AM - Lauren Walker

- Tracker changed from Task to Feature

- Priority changed from Normal to Low
