# MetacatUI - Task #6604

Story # 6598 (Resolved): Add Provenance to the DataCatalog and Metadata views

## State provenance in the search results

09/23/2014 04:19 PM - Lauren Walker

| | | | | |
|---|---|---|---|---|
| **Status:** | Resolved | | **Start date:** | 09/23/2014 |
| **Priority:** | Normal | | **Due date:** | |
| **Assignee:** | Lauren Walker | | **% Done:** | 0% |
| **Category:** | | | **Estimated time:** | 0.00 hour |
| **Target version:** | 1.8.0 | | **Spent time:** | 0.00 hour |

**Description**

Add a statement to the search result list for search result items that have provenance relationships to other datasets. Keep the statements short and concise to save UI room. Statements such as "This dataset is derived from {Title of Other Dataset} and 2 more" with links to those other datasets.

See the mockup attachment to [#6566](#).

*- Status changed from New to Resolved*

*- translation missing: en.field_remaining_hours set to 0.0*

This should be ready to go when the index has real data values. Just a matter of counting the number of sources and derivations and concatenating a string for the title.
