

## MetacatUI - Bug #6638

### If no autocomplete is created for a text filter, then the search doesn't execute

12/19/2014 12:20 PM - Lauren Walker

<b>Status:</b>	Resolved	<b>Start date:</b>	12/19/2014
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>	1.7.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>			
<b>Description</b>			
An error with closing an autocomplete window that doesn't exist (for whatever reason) will not cause a search to execute. Whether or not an autocomplete dropdown window has been created and opened, we should send the query with the term entered.			

#### History

- Status changed from New to Resolved

The DataCatalogView now checks if an autocomplete exists before attempting to close it.
