

MetacatUI - Task #6650

Story # 6598 (Resolved): Add Provenance to the DataCatalog and Metadata views

Draw a provenance flow chart in the Metadata and MetadataIndex views

01/21/2015 09:15 AM - Lauren Walker

Status:	Resolved	Start date:	02/26/2015
Priority:	Normal	Due date:	
Assignee:	Lauren Walker	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.8.0	Spent time:	0.00 hour
Description			
The drawing capabilities are done now, we just need the logic now to retrieve the provenance trace from the current data package to determine how to lay out the flow chart.			
The Metadata view will need to determine whether any object in the data package has a provenance trace and if so, group those into their packages so that only one "package node" circle is drawn in the source or derivation column of the ProvChart.			
Subtasks:			
Task # 6673: Collapse the prov chart after its height exceeds a certain amount			Resolved

History

#1 - 01/23/2015 04:37 PM - Lauren Walker

- % Done changed from 0 to 50

The ProvChartView is mostly complete, we just need to add the hover features to it and tweak the styling in non-DataONE themes.

#2 - 02/02/2015 03:16 PM - Lauren Walker

- % Done changed from 50 to 90

The charts are complete. Just need to do the style tweaking in the default, KNB, and EVOS themes.

#3 - 03/03/2015 04:13 PM - Lauren Walker

- Status changed from In Progress to Resolved

- Estimated time set to 0.00 h
