Description			
When you set the data registry property:			
<pre>registry.show.siteList=false</pre>			
the site list is indeed not shown, but submission fails because of a check to make sure the site parameter is not blank.			
We should allow submission without site if it is disabled.			

History

#1 - 03/06/2015 02:49 PM - ben leinfelder

- Status changed from New to In Progress

Now only performing check when registry.show.siteList=true.
Need to deploy and test.

#2 - 03/06/2015 03:47 PM - ben leinfelder

- Status changed from In Progress to Resolved

Tested on mn-demo-2 and worked as expected.
