

MetacatUI - Task #6708

Story # 6598 (Resolved): Add Provenance to the DataCatalog and Metadata views

Differentiate the prov chart nodes in some way from each other

Description			
When there are 25 sources in a prov chart, it is difficult to visually distinguish one data object from another, requiring the user to click on each circle to find out more about it. Some of the prov chat navigation and sense of place is messed with.
