MetacatUI - Task #6709

Feature # 6852 (New): Enhance Provenance Display in the Metadata View

Show a broader view of the provenance trace in a pop-up window

04/03/2015 04:00 PM - Lauren Walker

Description

Where the user can view multiple generations of the prov chart at once. The provenance trace/chart would be simplified but on a larger scale - so you may not be able to view each individual object in the trace but can see the overall lineage of data.
