

MetacatUI - Task #6763

Story # 6716 (Resolved): Production-ready DataONE theme

Member node filters are a little buggy

Description			
- The Member Node filters are being added to the query as "AND" so that selecting more than one Member Node is not really possible since they are mutually exclusive.			
- The Member Node filter checkboxes are not checked when the user navigates back to the search page from the metadata page
