<b>Target version:</b>	1.8.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>			
<b>Description</b>			
So the map doesn't float left next to the result list anymore and jumps down to the bottom of the page.

- Status changed from New to Resolved

The solution was to give a 0.5px "breathing room" to the map so the width can slightly change with the zoom level and all three columns (sidebar, result list, map) will still fit side-by-side in the window. For example, the map width is now defined as `calc(33% - .5px)`
