Target version:	2.5.0	Spent time:	0.40 hour
Bugzilla-Id:			
Description			
BasicGraphFrame saves properties such as center, zoom, size, etc., for the open frame. However, it assumes the frame only contains a single JGraph and model. Attached is an updated BasicGraphFrame that allows derived classes to save/load window properties for multiple JGraphs and models.			

History

#1 - 08/17/2015 09:01 AM - Christopher Brooks

I've asked Edward to review the code. At first glance, it looks ok to me.

#2 - 08/17/2015 01:14 PM - Christopher Brooks

- % Done changed from 0 to 100

- Status changed from New to Closed

I've merged the patch in.

Closing this one.
