

MetacatUI - Bug #6883

FGDC and application/octet-stream labels get cut off in Summary donut charts

Description

This can be fixed in one of three ways:

- Shorten label values to something still correct and understandable but short enough to fit
- Make graphs wider (already pretty wide, esp for mobile)
- Make labels two lines after certain length (hardest option to implement)

- Status changed from New to Resolved

The labels are now shortened so they don't get cut off
