

MetacatUI - Task #6896

Story # 6919 (Resolved): User, Group, and Member Node profiles

User is not signed out when session expires

12/04/2015 10:14 AM - Lauren Walker

Status:	Resolved	Start date:	12/04/2015
Priority:	Normal	Due date:	
Assignee:	Lauren Walker	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.10.0	Spent time:	0.00 hour
Description			
For example when the UI is left up overnight in a browser tab and then in the morning the user tries to complete a task that requires authorization, they no longer are able to generate a token/be signed-in. So we need to either sign them out, sign them back in, and redirect them to sign in again.			

History

#1 - 01/01/2016 10:07 AM - Lauren Walker

- Parent task set to #6919

#2 - 01/08/2016 12:36 PM - Lauren Walker

- Status changed from New to Resolved

- translation missing: en.field_remaining_hours set to 0.0

The app now listens for the focus event on the window, which is fired when the user goes to another window/tab/application and then returns. On focus, the token is checked using /diag/subject, and if the token is no longer valid, the page is refreshed.
