

MetacatUI - Bug #7001

Odd sidebar rendering when switching resolutions

03/27/2016 02:19 PM - Bryce Mecum

Description			
I just noticed two strange things with the rendering of the sidebar when I was switching between viewport sizes. Notably:			
<ul style="list-style-type: none">- The text 'Data files' appearing smaller than the rest of the items- Small marks between Year and Identifier			
GIF goodness attached.
