Metacat - Bug #7021

"Award number is missing." error from the registry when registry.show.funding=false

05/06/2016 11:53 AM - Lauren Walker

Description
When I attempted to submit metadata in the registry and have registry.show.funding=false in the metacatui.properties file, I still get an error message that the award number is missing. This is using the METACAT_2_6_0_ALPHA_2 tag.

- Status changed from New to Closed

This is fixed in the register-dataset.cgi logic now. Thanks Lauren.
