

MetacatUI - Bug #7145

Uploads graph shows upload date of most recent version, not first version

10/19/2016 12:24 PM - Bryce Mecum

Description			
I was looking at the Uploads graph on the #profile page, <a href="https://search.dataone.org/#profile">https://search.dataone.org/#profile</a> , and noticed the query for it filters out obsoleted objects (-obsoletedBy:*). The text caption, however, reads "Only the first version of each file is counted.". I would have expected the query to use -obsoletes* in order to filter to just the first version of each revision chain. Am I seeing things right?			

History

#1 - 10/19/2016 03:55 PM - Lauren Walker

- Assignee set to Lauren Walker
- Target version set to 1.13.0

#2 - 11/14/2016 02:17 PM - Lauren Walker

- Status changed from New to Closed

I changed the description to the Uploads graph from 'first version'-'>'most recent version'
