<b>Target version:</b>	1.14.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>			

#### Description

When I visit <https://knb.ecoinformatics.org/#data/page/0> with an empty Safari cache, the header background image animates across the screen to fill the space. This doesn't happen in other browsers. I've attached a gif to show the behavior.

To reproduce:

- Open Safari 10.0
- Navigate to <https://knb.ecoinformatics.org/#data/page/0>
- From the Develop menu, select Disable Caches
- Reload the page
- Observe the animating background image

Can you reproduce?
