This probably needs to be a 1.0.1 bug. For now, I have a prototype of how we could better add plants here:
<http://tekka.nceas.ucsb.edu/~lee/forms/plant-concept-a.html>
Use the "Temporary Evaluation Navigation: Previous Form | Next Form " just below the header to navigate between the pages.

This substitute "comm" for "plant" on these pages to make it apply to communities.

#3 - 09/09/2003 09:05 AM - Michael Lee

this is analagous to loading plants one at a time, as described in bug 723

#4 - 02/10/2005 05:17 PM - Michael Lee
