Blocks VegBank - Bug #719: manage plants you own		Resolved	11/13/2002

History

#1 - 01/08/2003 10:13 PM - John Harris

We added the functionality to load new plants back in July 2002. I'm not sure though if there is some other specific issues associated with this bug.

#2 - 01/14/2003 02:12 PM - Michael Lee

This bug refers to plants that you've added to VegBank -- plants that you (as a plantPArty) have a view of (status and usage). Say you change your mind and want to make your view "not accepted" on a plant, or change the names that apply to it. You would need some form to change your view of the plant taxa that you have already established a view of.

#3 - 11/21/2003 11:23 PM - Michael Lee

one plant management bug is enough

- This bug has been marked as a duplicate of 719 ***

#4 - 01/31/2005 02:52 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
