### History

#### #1 - 01/15/2003 05:39 AM - Robert Peet

Most plots have unknown taxa that need to be included yet are not in the USDA PLANTS list. We need to be able to manage these types before we open the archive for plot submission.

#### #2 - 11/21/2003 11:11 PM - Michael Lee

Irregular taxa now handled without adding new plants, this becomes much less important
