### History

#### #1 - 01/08/2003 10:37 PM - John Harris

This bug has something to do with making the system smart so that it recognizes similarities between incoming and existing attributes

#### #2 - 01/14/2003 12:37 PM - Michael Lee

Picklists that represent values may be doable, whereas many of the other "smart" queries are going to be more difficult. See bug 770 and bug 771 for more discussion of this particular situation (the translation of values into closed-list compliant values).

#### #3 - 11/21/2003 11:49 PM - Michael Lee

- This bug has been marked as a duplicate of 771 \*\*\*

#### #4 - 01/31/2005 02:54 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
