### History

#### #1 - 11/20/2000 08:17 AM - Michael Lee

just not time for these bugs in 1.0, pushed to 1.1

#### #2 - 01/14/2003 12:58 PM - Michael Lee

on the later side of 1.0.0

#### #3 - 04/19/2003 07:13 AM - Robert Peet

This is a very big bug which seems to broadly overlap with other bugs (eg Bug 746, bug 748, bug 754, bug 759, bug 760, bug 763). I pass it along to Mike to identify the portions not already covered by other bugs.

#### #4 - 04/23/2003 01:21 PM - Michael Lee

- Bug 776 has been marked as a duplicate of this bug. \*\*\*

#### #5 - 04/23/2003 01:27 PM - Michael Lee

This bug deals with connecting all the little validation processes so that one might validate data without requesting that data be inserted into VegBank. This was something that Bob liked so that users could "try" their data and fix it, without committing to upload. This would allow users to treat their plots as a package, and only would submit for insertion once all plots in the package had been validated.

Depends heavily on 778.

#### #6 - 11/24/2003 09:32 AM - Michael Lee

some of this bug is fixed by xsd which checks for required fields, the rest of this is contained in bug 1050

- This bug has been marked as a duplicate of 1050 \*\*\*

#### #7 - 01/31/2005 02:54 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.

#### #8 - 03/27/2013 02:15 PM - Redmine Admin

Original Bugzilla ID was 775
