Bugzilla-Id:	78		
Description The "Type" column in the mde attributes table will not be useful to most users, provides no useful information for users, and may confuse some. It should be eliminated. The entire attributes table as a mechanism for editing attributes should probably be eliminated, but that is a more drastic change.			

History

Done. The type column was removed, and the general window layout was cleaned up and default window sizes for mde improved.
