Is duplicate of VegBank - Bug #790: [812] :Final picklist values?:Make final ...			Closed 11/13/2002

History

#1 - 12/02/2002 02:13 PM - Michael Lee

This is the xml document created from MS Access that shows the current closed list values. The values will change in the next few weeks, perhaps even months, however.

#2 - 12/02/2002 02:14 PM - Michael Lee

this csv document is simply a translation of the xml, as per John's request.

#3 - 12/12/2002 11:42 AM - Michael Lee

This new document should be more useful in that it includes sort order, value description, table and field (explicitly) as well as the source table (in VegBranch). VBA script that generates this will soon be posted.

#4 - 12/12/2002 11:57 AM - Michael Lee

This is the VBA code that generates the XML doc. It must be embedded in a VegBranch database to work, OR:
Have tables named like: aux_table_field where table is the name of the table and field is the name of the field that has a closed list
"There must also exist a Z_FieldDescription table in the database which documents which fields have closed lists
"As well as a query Z_FieldDescriptionOrd, which includes a table:
misc_SQL_2AccTypes which translates "access" data types into "SQL" types

#5 - 01/14/2003 01:09 PM - Michael Lee

- Bug 790 has been marked as a duplicate of this bug. ***

#8 - 04/15/2003 01:07 PM - Michael Lee

done!

#9 - 01/31/2005 02:52 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.

#10 - 03/27/2013 02:15 PM - Redmine Admin

Original Bugzilla ID was 791
