This is a more commonly used bit of data that users will want to add outside of a plot. Also somewhat simple in implementation -- simple form linked to one or two tables. (A bit more for community -- but this functionality is quite central to what we're working on.)

#2 - 04/21/2003 11:15 AM - Michael Lee

This bug is really 2 bugs.

1 bug is for querying/showing extant VegBank Stratum Methods.

The other part is for a form that allows users to enter a new Stratum Method to the system.

Since we already have too many bugs, this bug will remain here, with these above 2 "subbugs" included in it.

#3 - 04/21/2003 02:19 PM - Michael Lee

done, new bug now in Gabe's court to implement forms that I designed, or ask me questions about the current forms. Also, Bob should take a look at the forms before Gabe works on them. Currently located:

<http://tekka.nceas.ucsb.edu/~lee/forms/>

#4 - 01/31/2005 02:52 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
