#### History

##### #1 - 01/14/2003 01:22 PM - Michael Lee

This is a more commonly used bit of data that users will want to add outside of a plot. Also somewhat simple in implementation -- simple form linked to one or two tables. (A bit more for community -- but this functionality is quite central to what we're working on.)

##### #2 - 04/19/2003 08:10 AM - Robert Peet

This bug should depend on another bug where ML is building a form for interpretation of a plot (ie assigning to a community). I pass this back to ML to either build the form or indicate the dependency.

##### #3 - 10/02/2003 08:44 AM - Michael Lee

these bugs are overly compartmentalized. They should be part of bug 804 or bug 807.

##### #4 - 01/31/2005 02:53 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.

##### #5 - 03/27/2013 02:15 PM - Redmine Admin

Original Bugzilla ID was 805
