Is duplicate of VegBank - Bug #1953: notes: link to view/add note in views		Resolved	02/09/2005
Blocks VegBank - Bug #822: Annotation: view current notes on data + create notes		Resolved	11/13/2002

History

#1 - 01/09/2003 09:46 AM - John Harris

Bugs the require new feature to allow vb users to add information to the plots database directly -- ie, not via adding a plot.

#2 - 01/14/2003 01:29 PM - Michael Lee

lower priority meta data that still needs connecting, but less urgently than the other methods with 1.0.0beta2 or 1.0.0.

#3 - 11/11/2003 02:06 PM - Michael Lee

Need a form to add notes to data. Should be linked from views of other data, such as plot-view, so that user can request a view that allows adding notes:

```
plot_ID: 445
topoPos : flat ravince [add note]
landform: hilly [add note]
...
```

only certified users can add notes.

#4 - 11/22/2003 12:17 AM - Michael Lee

need this for rectification

#5 - 04/06/2006 06:08 PM - Michael Lee

Need 4 things:

- 1) links or a method of adding a note from most anyplace in data views
- 2) a method to fill out a form to add a note
- 3) a method to alert user that there are notes on this plot (there is a denorm boolean field for this)
- 4) a method to display notes for a plot

#6 - 04/06/2006 07:31 PM - Michael Lee

- Bug 1953 has been marked as a duplicate of this bug. ***

#7 - 04/06/2006 07:31 PM - Michael Lee

Allow certified users to add notes. Allow notes to be publicly viewable.
Supported tables:

```
*observation
*plot
*project
*commClass
*taxonInterpretation
```

#8 - 08/24/2006 11:59 AM - Chad Berkley

changing the milestone

#9 - 09/01/2006 12:07 AM - Michael Lee

oops, changed the milestone on the wrong bug

#10 - 03/27/2013 02:15 PM - Redmine Admin
