#### Description

Some references to the SAX parser driver are hardcoded into the source code. These should be replaced with references to property values so that we don't generate dependencies on particular parsers. An example to be changed is line 51 of querybean.ExternalQuery. There may be others.

#### History

##### #1 - 06/29/2001 10:56 AM - Dan Higgins

hardcoded parser names not used in new version

##### #2 - 03/27/2013 02:13 PM - Redmine Admin
