### History

#### #1 - 04/23/2003 02:28 PM - Michael Lee

see bug 907 for rules on where and who and how many may be uploaded to VegBank

#### #2 - 11/22/2003 12:07 AM - Michael Lee

we should create and store 2 userPreferences that they cannot control, or at least can't override: (maybe add a field: preferenceType. values: internal, user-set)

- 1) userPlotQuota : ### (plots max may be uploaded)
- 2) currentPlotsUploaded : ### (plots so far uploaded).

If a user attempts to load more than the quota, then the plots get rejected and a note gets sent to them telling them why. Some rules need to be devised for letting some users submit more plots than the normal quota. In this case, preference [#1](#) gets upped to a higher #.

#### #3 - 11/08/2004 07:59 PM - Michael Lee

number of plots loaded per certified user covered in bug 907

- This bug has been marked as a duplicate of 907 \*\*\*

#### #4 - 01/31/2005 02:54 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
