History

#1 - 01/09/2003 09:50 AM - John Harris

This is a feature request to allow a vegbank user to view and re-issue their passed queries.

#2 - 11/24/2003 09:58 AM - Michael Lee

would be nice to have this sooner: too much to do

#3 - 09/11/2006 04:54 PM - Michael Lee

The idea here is that queries would be save and the CRITERIA (not the plot list) could be reissued against the database to see if new plots match that criteria. We wouldn't want to save every query the user posts, just ones they want to save for some reason. Could do neat things like RSS updates of plots this way.
